The Medic One Foundation is a major reason why our region has the highest survival rate for sudden cardiac arrest than any other city in the United States.

You probably don't think about the quality of training paramedics receive or how to improve your chances of survival before you even reach the hospital, but we do—every day. Our mission is to save lives by improving pre-hospital emergency care, and we have been doing it successfully for 40 years.

Please show our region's first responders that you stand with them by providing the critical training and life-saving equipment they need to save lives when responding to catastrophic disasters and medical emergencies.

The year-long benefits of your support are listed here and begin with our Lifesavers & Legends Luncheon on Thursday, November 6, 2014.
